# LINES Desk partitions - Office dividers

LINES is a mobile divider solution that demarcates spaces and protects the personal area of workers and users, reducing exposure and providing security. Lines is based on a concept different sized of panels and are available in a wide variety of materials (acrylic, wood and upholstery) and finishes that can be combined with each other, with a graphic, close and versatile character. Available in table, floor and wall versions, the Lines system provides complete configuration freedom to customize each space and give it its own character.

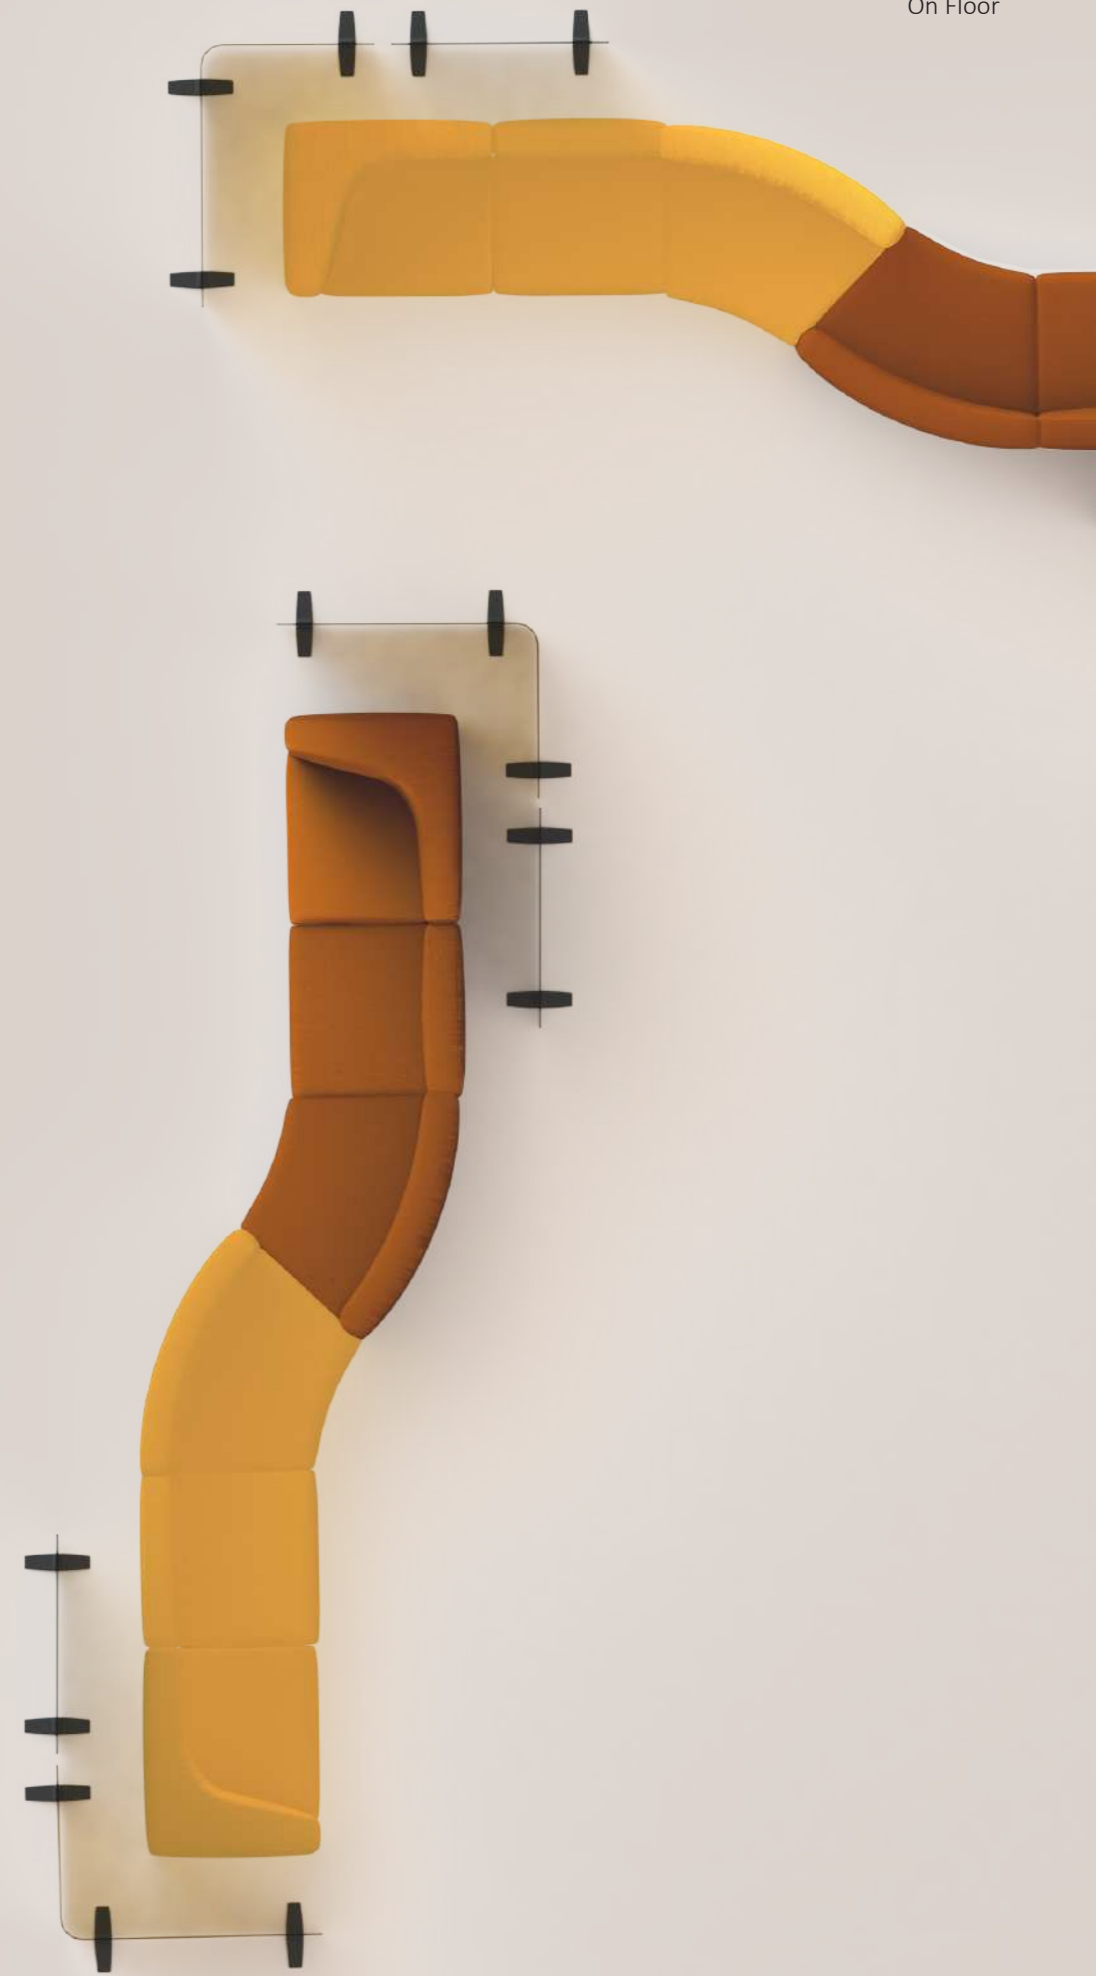

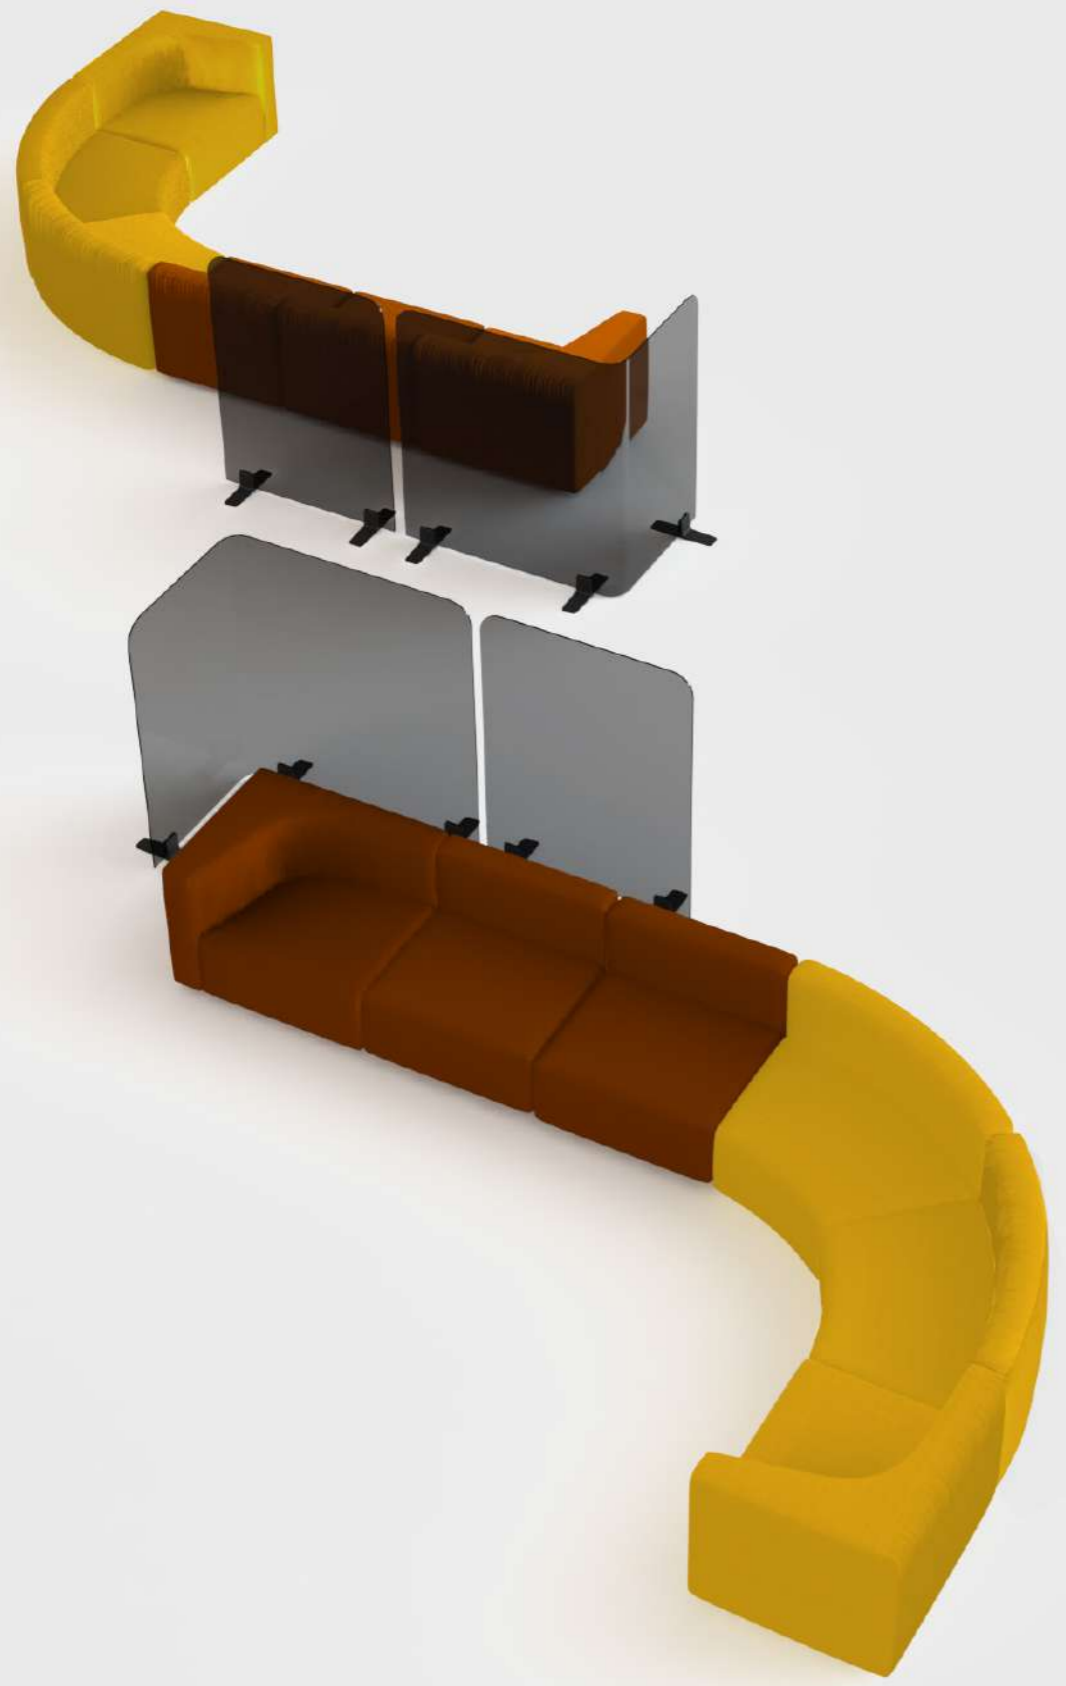

Andreu World

Andreu World
Panels in different sizes and are available in acrylic, oak and upholstery, which allows for easy cleaning and disinfection.

In its floor version, the Lines program offers various panel sizes, including two curved options of 90º and 135º in the acrylic option, allowing for the creation of continuous compositions.

The quality of materials is an identifying mark of Lines, and the acrylic is available in 4 colors, transparent, smoke gray, green and blue, which permits a wide range of combinations with oak and upholstered panels.

The design language of this panel program, with its rounded corners, gives it a graphic character, permitting easy integration into any type of environment or space.
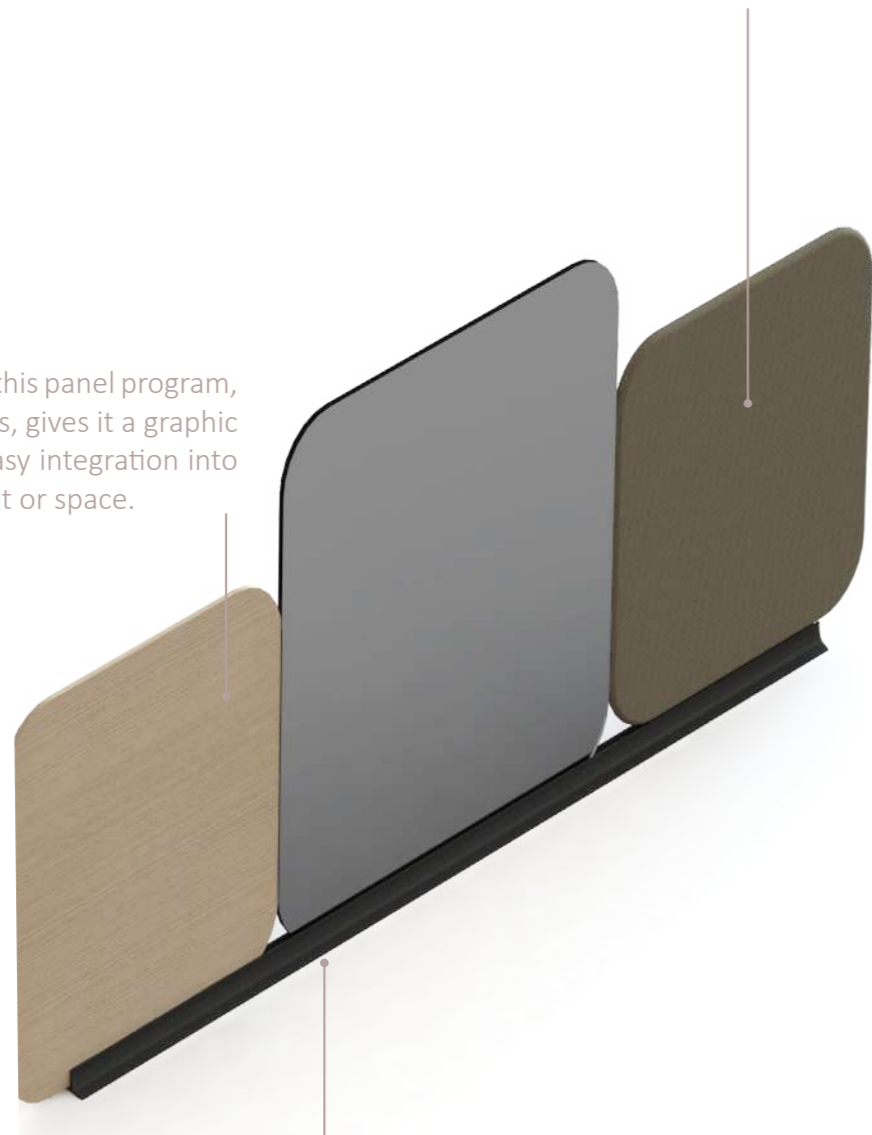

In its table version, the philosophy of the aluminum guide system allows for easy fastening and a clean and integrated design.

Lines aids in the reorganization of spaces and distribution of workstations, helping to direct the flow of circulation.

10 mm thick acrylic panels available in 4 colors. Oak plywood panels available in the different finishes from our offering. Panels upholstered in the Jacquard Three fabric by Andreu World Textiles.

Table and wall panel supports are made of aluminum available in two finishes. Floor panels are presented with an aluminum support.

Description

Individual dividers with 3 finishes (acrylic, wood and upholstery), all supported by an aluminum profile in 2 different finishes, epoxy black or anodized aluminum.
It is possible to join several together, making the aluminum profile continuous.

Cleaning recommendations

Easy cleaning with soft suede and isopropyl alcohol or soap and water.
